Previous actions:

Recent incidents overview

TW BF –

- We responded to migrant activity over the weekend.
- Our deployment plans were based on the Red Weather windows.
- There was significant French coverage over the weekend and a number of attempted launches were disrupted.
- As usual numbers should be treated with care but BF responded to 5 events on Saturday with 68 migrants and 4 events on Sunday with 57 migrants.

- Saturday also saw the RNLI rescue 35 migrants off Eastbourne.
- At this stage the launch site for this event has not been confirmed.
- We are now commencing planning for an improvement in the weather over the weekend.
- Crew changes in Deveran will be completed by Thursday.

PS NMIC – Have requested intel from partners on possible changes in launch sites and tactics caused by French LE success. Requested that any info / intel regarding migrants received into Dover CGOC from Gris Nez be passed to NMIC MCA LO desk.

JM RNLI – Discussions around the best place for RNLI casualty landings (Newhaven or Eastbourne). [Name] would like to have a meeting with the relevant people after this one [Name] to arrange).

AN HMCG – Update about the JCR room

TE HMCG – A reasonably quite few weeks. No feedback from the Ops room at present.

Lessons learned / concerns identified

TB – They are getting positive feedback about the JCR room at Dover.
