	Total Flying	1 hr 40 mins					
Tasking Details	Alerted by	UK Rescue					
	Subject of SAR Action	Person (s) in Water					
	Type of Sortie	Maritime					
	MCA Number						
	ARCC Number	505478					
	Local Incident	235/21					
Delay	Continuation from previous tasking but crew change, ARCC Brief, refuel and HUMS download.						
Narrative	SAR 235/21.. Tasked to return to general search area and continue search for outstanding PIW. Low mix levels for NVGs, plus casualties had been in the water for a prolonged period therefore poor thermal contrast for FLIR. No PIWs found. Empty RIB located and details passed to French CG. Stood-down. On return to base continued with training sortie.						
Fuel Details	Departure Load	1100 lbs					
	Total Uplift	lbs					
	Arrival Load	lbs					
	Total Burn	- lbs					
	Burn Rate	- lbs/hr					
Crew Training	Name Captain	General Handling, NVIS Ops [PF] (35), NVIS Ops [PM] (35), Search Patterns					
	Name Co-Pilot	General Handling, NVIS Ops [PF] (35), NVIS Ops [PM] (35), Search Patterns
