Attachments: ST RSL Review recommendation for BMG (002).docx; 2021 Pay Award and General Update

Hi [Redacted],

Been having a look through the various logs and found the following from SOG:

Action	461	22/07/2020	Name / Name Mike Bill / Name	VTS training - plan to be set up for VTS ops qualifications in order that candidates can regularly attend courses. MB/HH to dial into network governance meeting and explain VTS priority in order that it is treated as a national issue. Training need for VTS to be formalised. Name Name Name and member of training team to feed into Maritime Working Group to establish VTS training requirements now and in the future.	24/11/2020 - Controller meetings – I am holding controller meeting as and when required plus BMG and working groups. I suggest we close this action, unless Div Comms feel that a more formal format is required. 12/01/2021 - DC2 - VTS Business case/proposal for Dover approved by Executive board and shared with staff today. This will address the current VTS staffing/competence issues. 22/04/2021 - Completed - overtaken by reorg of VTS
--------	-----	------------	---------------------------------------	---	---

And from COG:

Decision	39	29/07/2021		Decision made to increase the complement at Dover to x 2 MAROPS Controllers - decision to be ratified at next COG.	13/08/2021 - decision ratified
----------	----	------------	--	--	--------------------------------

I've also attached the RSL review recommendation from the BMG that mentions the announcement to increase headcount at Dover and the Comms that were issued out outlining the increase at Dover.

Hope this is useful but if you need anything else just let me know.

Many thanks

Hi [REDACTED],

You will need to speak to [REDACTED], I don't recall seeing a decision paper. [REDACTED] would be the best person to ask if the paper went through the Senior Leadership Group to the Exec Board.

Regards

Subject: Dover MAIB Questions

Hi Both,

I am having to submit some information to [N] to pass to MAIB for their investigation.

I am looking for the following:

- MRCC Dover staffing requirement
- Business case / decision paper for uplift of 4 x 6 watches for migrant cell

[REDACTED] – Are you able to help as it sits within operations?

[REDACTED] no sure if we have anything in our decision log / papers you can share?
