 Subject: RSL - an update

Good afternoon,

Please note that the RSL has changed as from today, to reflect recommendations made in [Name] [Name] paper (attached for reference). For clarity, the top line Network RSL shown below is what we could aim to achieve in 2023/24 when we are fully staffed and have good levels of experience; more work needs doing to progress this as we know. The RSL Minima (highlighted) is what the RSL has now been changed to, to better reflect demand and risk and is based more appropriately to staffing now. So, RSL for Peak and what we are now working to is 43 on weekdays and 35 on week nights and 47 on weekend days and 36 on weekend nights (inc. Friday).

Low Weekday D/N	Low Weekend D/N	Medium Weekday D/N	Medium Weekend D/N	High Weekday D/N	High Weekend D/N	Peak Weekday D/N	Peak Weekend D/N
-----------------	-----------------	--------------------	--------------------	------------------	------------------	------------------	------------------

Network RSL	44/39	44/40	44/39	44/40	49/42	53/43	53/43	61/46
-------------	-------	-------	-------	-------	-------	-------	-------	-------

RSL Minima (see below description)	35/30	35/32	35/32	35/32	39/34	43/35	43/35	47/36
Network RSL 2021	31/21	34/25	34/22	37/29	36/25	48/31	47/27	49/32

With kindest regards
