

GPS

When you are calling for help provide your GPS location!

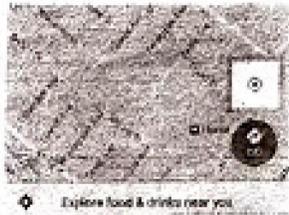

GPS still works without a signal and data, you can still call 112!

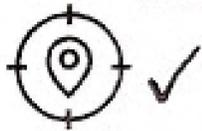

If you have data you can easily use WhatsApp for sending your location.

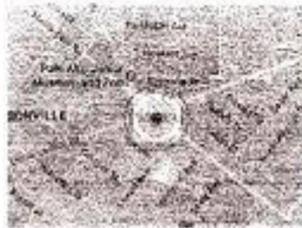

1) Be Assured that location is necessary, [illegible] open the google sign

2) And click on the crosshair [illegible], it will possible the your location will be visible to army. [illegible]

3) Click on the current point and take it to your current location [illegible] for throwing it. ● ✓

4) In the upper portion of your coordination page of GPS screen [illegible]

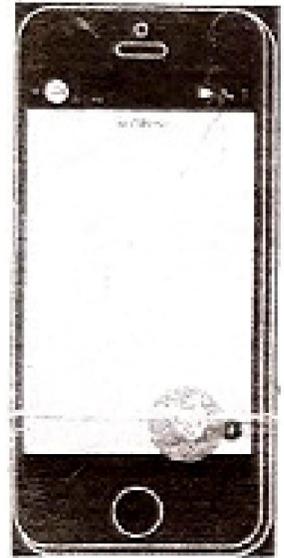

5) Whenever you calling for help give these numbers in telephone look at it closely [illegible]

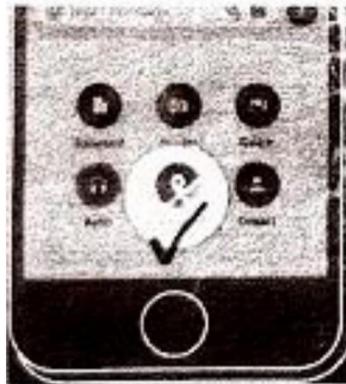

1) Be sure when you open WhatsApp [illegible]

2) In the message whomever you wants to receive your location click on the paperclip icon ✓

3) Click on the location

4) Send your current location-send your live location
